

THE VISIT OF
PROFESSOR ARNOLD STERN, MD, PhD.
FROM NEW YORK UNIVERSITY SCHOOL OF MEDICINE
AT
COMENIUS UNIVERSITY MEDICAL SCHOOL

Prof. Arnold Stern

Arnold Stern, MD, PhD has been a member of the faculty of the New York University School of Medicine since 1970. He is a Professor of Pharmacology and Course Director of Medical Pharmacology, with a focus on developing new medical education technologies involving simulation and audio-visual modules. His research interests are in oxidative stress and signaling, with particular emphasis on the role of nitric oxide in signaling. For the past five years he has served as the Assistant Dean for Extramural Education Programs. Among his many recent administrative activities are: Associate Director of the Institute of Community Health and Research, Associate Director of the Sino-American Collaborative Program, Member of the Steering Committee of the Primary Care and Public Health Scholars Program and Member of the Executive Planning Committee of the Center for the Study of Asian American Health. Dr. Stern coordinates and oversees the International Health Program for medical students and the Programs for Preparatory Education in Science and Medicine that focuses on pre-college and college initiatives.
