

**Receptors, autonomic nervous system SS – 6<sup>th</sup> seminar**

- Mechanisms of the transfer of chemical signals into the cells.
- Vegetative nervous system - neurotransmitters, receptors and mechanisms of their action.
- Classification of receptors at the terminals of vegetative nervous system.
- Physiological actions of sympathetic and parasympathetic nervous systems at the molecular level.

**Next week:**

Metabolism of water and minerals – Electrolyte and water balance

(Study material: uploaded to MS Teams MF\_Medical Biochemistry-GM or D\_2023-2024))
